

About Us:

Hey Mom, I'm Shiori, one of the three editors of [Lemon Scum](#). L.S came to be when three girls from different places suddenly decided to create a manga called *Ship Boat*. As you can tell, we no longer create *Ship Boat*, since that's the first place. But we decided to keep L.S going, it was our pride and joy at that time, well, now we're sad. There were alot of troubles along the way, the lack of staff, time, and our general laziness. Shiori and me didn't really help at first, we kinda gave all the responsibility to Momme and L.S was slowly forgotten. But one day when I decided to take a look at our forum, to my surprise, it was quite busy. We had over 100 registrations, some wonderful stuff, so I thought, 'I want L.S to keep on going!' But two problems came along, we had no editors and school was starting. Momme was too busy with school work, I was mostly a beginner as L.S slowly 'died'. But then Koshika came along and offered to be an editor. So with her help, hopefully, L.S will be lively once again.

I'd like to thank all of the wonderful staff, Koshika, and everyone else who supported us. Thanks alot.
